INTRODUCTION

NEJM CareerCenter

NEJM CareerCenter (NEJMCareerCenter.org) is the Internet recruiting service from the New England Journal of Medicine. It is a recruitment site for physicians that offers quality jobs (both permanent and locum tenens) and unique content. For employers and recruiters, it offers candidate tracking, and profile searching.

The combination of the New England Journal of Medicine and NEJM CareerCenter is a powerful recruiting strategy for physician recruiters who are seeking the broadest and best audience for their marketing message.

The New England Journal of Medicine

The New England Journal of Medicine (NEJM) is published every Thursday by the Massachusetts Medical Society and has a nationwide circulation to nearly 113,000† physicians and health professionals. Pass-along readership raises its weekly reach to more than 168,000 physicians.

NEJM reaches an active, informed, and loyal audience of physicians both in training and in practice. According to the Institute for Scientific Research, NEJM is the most cited medical journal in the world.

Additionally, in a recent independent, blind study, physicians named NEJM as the #1 most useful source for jobs, both in print and online.†

For physician recruiters, this translates into more quality responses. During a period of physician shortages, the ability to reach a loyal and active physician audience is a real bonus. As a result of the publication’s reach and its unique content and reputation, NEJM publishes more physician recruitment classified ads than any other U.S. medical publication. For information on our print and online advertising programs or to receive a copy of our Print rate card, call NEJM Classifieds at (800) 635-6991.
